THE HYGIENIC ICE CO.

of Washington D. C.

In any sums, \$100, \$500, \$1,000, \$10,000.

We have secured from the Company the privilege of seling \$25,000 of the above bonds, and we now offer them for \$103 and interest from April 1 to date of sale.

offer them for \$100 and increase roll April to date of sale.

The capital stock of the Hygienic Ice Company amounts to \$30,000, and the plant, now nearing completion and to be in full operation by May 15, cannot be duplicated for \$250,000.

The deed of trust given to secure the bonds covers the entire plant of the Company. The bonds are payable twenty years from January 1, 1890, and will be issued only as the work of construction progresses.

bonds are payable twenty years from January 1, 1890, and will be issued only as the work of construction progresses.

The Company owns by purchase the famous Federal Springs, a mile and a half east of the Capitol, being the largest within the District of Columbia, from which there is the enormous output of over 800 gallons a minute. These springs have long been famous for the purity and sweetness of the water therefrom. Because of the phenomenal coldness of the water (54 degrees F.) the task will be greatly reduced, and for this reason the daily work of freezing can be carried on more easily and more oconomically than by any future competing plant, which will be compelled to use river or other water of a higher temperature.

The buildings have been erected to accommodate adupticate plant of machinery so that an output of 240 tons a day can be secured at a very low additional cost. This duplicate plant may be put in this season to meet the unexpectedly large demand already apparent for the Hygienic Ice, thereby adding to the security of these bonds.

These bonds will be registered by the Washington Loan and Trust Company. The interest at 6 per cent will be paid quarterly on the first days of January, April, July and October, by check of the treasurer mailed to the holders of the bonds, as is done with the interest checks of the bonds of the Washington Market Company. They will be issued in multiples of \$100 at the option of the purchaser.

For these reasons the b.nds will prove a very desirable investment and command a large premium—making a profitable as well as a safe investment. To those first applying the limited number of bonds at our disposal will be first sold.

Very truly,

Very truly.

SERVICE PENSION BILL. A Surprise and a Lively Debate in the House. THE MONTANA CONTEST

Taken Up For Consideration in the Senate Today.

THE SENATE.

The House amendment to the joint resolution for the removal of the naval magazine from Ellis Island, N.Y., was concurred in. Mr. Evarts presented resolutions of the New York Chamber of Commerce protesting against the pending bill for a census enumeration of the Chinese as absurd, barbarous, unchristian and cowardly, and a memorial on the same subject from the American Missionary Association was presented by Mr. Dawes.

Mr. Platt presented a memorial for the admission of New Mexico as a state, but without committing himself, he said, to the views set

REPORTS FROM COMMITTEES. Among the bills reported from the committees and placed on the calendar were the following: House bill to amend the homestead laws in regard to the manner of applications and to fees; House bill to regulate the sittings of the U.S. courts within the district of South Carolina; Senate bills for public buildings at Kansas City, Mo. (\$200,000;) Grand Haven, Mich. (\$100,000), and Mansfield, Ohio (\$100,000). House bills for public buildings at Haverhill, Mass. (\$75,000), and Lynn, Mass.

THE MONTANA CONTESTED ELECTION. Mr. Hoar moved to proceed with the Montana contested election case.

Mr. Hale asked him to give the preference to the Chinese enumeration bill, which it was important to have disposed of as soon as possible.
